Schedule is subject to change dependent on class size and/or interest.

Here's the perfect opportunity for you or a staff member to learn the basics of NCV and get practical, hands-on training. Cadwell's Basic Nerve Conduction Studies workshop gives you a solid foundation for the competent acquisition, analysis and evaluation of NCV responses. You will learn:

- How to collect sensory and motor NCV responses, including how to perform F-wave and H-reflex studies
- Median, Radial and Ulnar Sensory Conductions studies
- How to analyze NCV responses and how the results are used in clinical diagnoses
- Electrode placement, patient preparation and instrument setup
- Technical challenges associated with Nerve Conduction
